FREE COURSES WITHOUT ASSESSMENT

Sl no:	Name of the course	Course Provider	Duration	Paid / Free	nasscom Assessment	Value and benefits of the course(product description)
1	Microsoft	Azure Security Engineer Associate (Az-500) Course By Microsoft (App Development)	34:21:00	Free	No	This course follows a practice-oriented and interactive methodology that will teach you concepts and tools that can be applied in your daily work. Learn how to build an outside-in perspective that is critical to problem solving. Build ability to look ahead and observe the invisible trends that surround us.Connect multiple knowledge perspectives to create solutions that are simultaneously creative and robust
2	Microsoft	Cloud Computing Foundation Course by Microsoft	51:54:00	Free	No	This is a pathway
4	CISCO	Introduction to Packet Tracer	10:00:00	Free	No	A foundation course that helps develop a well-versed understanding of elements that make up the product management discipline.
5	AWS	AWS Cloud Masterclass - Discovery Day	03:00:00	Free	No	Enroll, download and start learning valuable tips and best practices for using our innovative, virtual simulation tool, Cisco Packet Tracer. This self-paced course is designed for beginners with no prior networking knowledge. It teaches basic operations of the tool with multiple hands-on activities helping you to visualize a network using everyday examples.
6	Microsoft	Azure Administrator Associate (Az-104) By Microsoft	49:36:00	Free	No	Learn key Coding essentials (A step above basics) that aids and prepares for Cloud Computing Roles by practicing coding on programming languages such as Python, Java, Java Script & C++
7	Microsoft	Azure Developer Associate (Az-204) By Microsoft	32:54:00	Free	No	Learn key Coding essentials (A step above basics) that aids and prepares for IoT Engineering Roles by practicing coding on programming languages such as Python, Java & C++
8	Microsoft	Security Administrator Associate (Ms-500) By Microsoft	11:51:00	Free	No	Learn key Coding essentials (A step above basics) that aids and prepares for Web Development Roles by practicing coding on programming languages such as HTML, CSS, Python, Java & JavaScript
9	Microsoft	Developer Associate (Ms-600) By Microsoft	25:49:00	Free	No	Learn key Coding essentials (A step above basics) that aids and prepares for Mobile App Development Roles by practicing coding on programming languages such as Java & JavaScript

10	Microsoft	Azure Ai Fundamentals (Ai-900) By Microsoft	09:49:00	Free	No	Learn key Coding essentials (A step above basics) that aids and prepares for Front End Developer Roles specific to Block Chain Technology by practicing coding on programming languages such as HTML, CSS & JavaScript
11	Microsoft	Microsoft Power Bi Data Analyst (PI-300) By Microsoft	18:40:00	Free	No	Get on the Digital Train, grasp the concepts that will make you a successful Digital Marketer and boost your business/service in a way that is in line with current marketing scenarios, enabling you to reach, to the targeted Global customers.
12	Terv	Programming Basics for Cyber Security Engineers	10:00:00	Free	No	This course is important to acquire knowledge about managing a very large database and use it for prediction and evaluations in different applications.
13	Flogames	Be a Master Communicator	01:00:00	Free	No	Cybersecurity or IT security means the protection of computer systems and networks from the theft of or damage to their hardware, software, or electronic data, as well as from the disruption or misdirection of the services they provide. This lab offers access to Kali & Ubuntu linux to perform advanced penetration testing using various tools.
14	Accenture	SQL Fundamentals	08:00:00	Free	No	This Cyber Security Foundation course, Aligned to Competency Standards developed by SSC NASSCOM in collaboration with Industry & approved by Govt. This Course is aimed at upskilling those who have a basic understanding of programming or information technologies and helping them expand their knowledge & learn the fundamentals of CS at a foundation level.
15	Accenture	Python Basics	08:00:00	Free	No	This IoT Foundation course, Aligned to Competency Standards developed by SSC NASSCOM in collaboration with Industry and approved by Govt. IoT Foundation Course is aimed at upskilling those who have a basic understanding of programming or electronics, to help them expand their knowledge and learn the fundamentals of IoT technologies at a foundation level.
16	Accenture	Operating Systems & Shell Scripting	06:00:00	Free	No	Meet the tools and technologies that power development on the Salesforce platform. Learn about Salesforce Multi-tenancy Architecture and create a Sample Application. Get introduced to the platform, navigate use cases, and build custom functionality. Complete the super badge set for Platform Developer I credentials. Earn a FutureSkills certificate
